# MERRILL TALKS PLAINLY.

Conventions Have Vintented the

Twentieth Ward Democratic society on Monday evening, July 8, at 8 o'clock p.m. in Ploneer Firemen's hall on East Vet—The Trumb's Boom and the Call—Watterson's Prediction and its Fulfiliment—Democratic Meeting is reorganization and the Edition of Democratic societies to be held on the 13th inst.

The executive committee of the Bimedials union will probably meet today at 129 p. m., in the office of R. C. Chambers, and perfect plans for the organization of the silver sentiment in the United States. The cell was issued some time ago by President Chambers, and there is every indication that at today's meeting there will be a sufficient attendance to carry through the business, it is expected that Mr. Light will come from Denver, Attorney-General Jones from Attorney-General Jones from Washington, Mr. Dell from Oregon and Captain Bryan from Idaho. President
Chambers, Thomas G. Merrill, of Monhall on Monday, July 8, 1895, at 8 applications from various sections for

applications from various sections for admission, must be acted upon today.

Democrats More Favorable.

Hon. Thomas G. Merrill came in from Montana yesterday. He was still emphatically favorable to pressing the organization of the union. "The result both at Cleveland and in Kentucky has demonstrated the need of such organization as we propose," he said. "We must organize the silver sentiment in both parties. I believe in the first of the silver sentiment in both parties. I believe in the first of time. Mrs. Green gave a call for help which bid fair to arouse all the neighbors, whereat Storey, grabbing all his clothing, fled to the outside, where he called to meet at the old school house on Wednesday evening the 10th day of July, 1895, at 8 o'clock p. m. for the purpose of reorganizing and the election of delegates to the territorial convention to be held in Sait Lake convention to be held in Sait Lake city July 13, 1895. All Democrats are still emphatically favorable to pressing the organization of the union. "The result both at Cleveland and in Kentucky has demonstrated the need of such organization as we propose," he said. "We must organize the silver sentiment in both parties. I believe the result of the Cleveland convention was only what might have been anticipated. The Republicans from both speakers in attendance." thicky has demonstrated the need of such organization as we propose," he said. "We must organize the silver sentiment in both parties. I believe the result of the Cleveland convention was only what might have been anti-cipated. The Republicans from both the east and west went there with a determination to do nothing. The effect it will have on the next national convention is, of course, doubtful. I convention is, of course, doubtful. I hardly think I could say a majority of the Republican voters of the United States are in favor of filver. The convention demonstrated that the leaders schoolhouse for the purpose of electare against it, and appearances are that they will control the next national convention, unless they become thor-oughly convinced that the people de-mand bimetallism. The result in Kenmand bimetallism. The result in Kentucky was, of course, disappointing, but I believe that 95 per cent of the Democratic voters there are for free Silver, and will make themselves felt when the next contest comes on. I am forced to the belief that there is more hope from the Democratic voters there are for free when the next contest comes on. I am forced to the belief that there is more hope from the Democratic than from the Republicans. What we need to do is to reach the people of the middle and enstern states, and educate them."

Warmly for Silver,

# More Trumbo Moves.

More Trumbo Moves.

The Trumbo mill still keeps on grinding. The latest move on the programme is to bring the Sau Francisco Call to the city in opposition to the Tribune. Arrangements have been made whereby the Call will every morning run a special early edition, which will catch the owl overland from San Francisco and reach this city in the morning, twelve hours in advance of the other San Francisco papers. Of course it is believed they will make no particular attempt to meet this arrangement, as they have no senatorial candidates to elect. After the Call is thoroughly in the city it will be supplied with plenty of pro-Trumbo matter every morning.

From Democrats.

To Uphold the Prediction.

Colonel Henry Watterson, the "star-eyed goddess," seems exceedingly anxious to establish and uphold his reputation as a prophet. It will be remembered that when he made be remembered that when he made his famous speech at Chicago against the nomination of Cleveland he said that the latter would lead the Democratic party through a saughter house to an open grave. Up to the time Cleveland came out for "sound money" Watterson made a practice of criticizing him. But since that time the great editor has seen a new light and now he is cheek by jowl with the administration. If Mr. Cleveland should succeed in his alleged ambition for a third term nomination, then for a third term nomination, then Dr. Price's Cream Baking Powder
